

NviroClean™

*The Simple Cleaner...
Just Spray and Walk Away!*

- use on flushed & non-water urinals
- environmentally friendly
- biodegradable

Stock #1614, quart size
Stock #1601, gallon size

ADVANTAGES:

- No Wiping or Scrubbing Needed
- Works Fast
- Pleasant Fragrance
- Saves Time
- May Reduce Build-up in Trap and Drain
- Leaves a Shiny Surface
- Saves Labor
- Cost Effective

GREAT FOR:

- Schools
- Restaurants
- Stadiums
- Factories
- Marine Applications
- Other High Traffic Facilities

BENEFITS:

Nviro-Clean™ has been specifically designed for use with Waterless or other non-flushing urinals. Upon fixture contact, this cleaner is activated to break down any minute residual urine or other organic matter. The vertical urinal surface allows it to be transported by gravity into the trap insert. Using this product, the cleaning process is reduced to a simple spray and walk away action!

Nviro-Clean™ will leave behind a clean, shiny, deodorized urinal. Prolonged use may assist in the reduction of build-up in the traps, flush rims and trap inserts - effectively extending the trap life and reducing cleaning efforts. Drains will also benefit as prolonged use may assist in the reduction of drain line sediments.

DIRECTIONS:

Spray Nviro-Clean™ liberally across the inside surface of the urinal and onto the EcoTrap®. DO NOT WIPE OR CLEAN OFF! Do not use other cleaners on the urinals while using Nviro-Clean™. This product may also be used to clean the outer surface of the urinal and surrounding walls, dividers and floors.
